Sparkling Touch Holdings Company Profile

Client Focused

Results Driven

Accredited Training
Certified Consultations

A man in a grey suit is standing in a meeting room, presenting a line graph on a whiteboard to a group of people seated in front of him. The whiteboard shows a line graph with four data series (blue, yellow, red, green) plotted against years 2015, 2016, and 2017. The y-axis ranges from 0 to 40. The blue line starts at 20 in 2015, rises to 35 in 2016, and reaches 40 in 2017. The yellow line starts at 30 in 2015, drops to 15 in 2016, and rises to 28 in 2017. The red line starts at 5 in 2015, rises to 15 in 2016, and reaches 18 in 2017. The green line starts at 12 in 2015, drops to 10 in 2016, and reaches 15 in 2017. The man is gesturing towards the graph with both hands. The room has large windows in the background and a potted cactus on a windowsill to the right.

“We always aim to give a unique, personalized touch, to every client we service irrespective of industry and to exceed our clients expectations.

- Sonto Nhlabathi | Director

Our Company Values

As Sparkling Touch we own the following values

1. Excellence
2. Integrity
3. Commitment
4. Teamwork
5. Innovation
6. Continuous Improvement

01.

Company Vision

Our vision is to be a leading service provider in training, industrial engineering consulting, skills development and project management.

02.

Company Vision Statement

Our aim is to provide quality needs-based services that are geared towards helping our clients to best achieve their professional, career and personal goals.

Our Service Delivery Options

STH currently offer over a number of courses in different subject areas. We believe that the end result of any training or learning intervention should show a significant return on investment, whether it is increased performance, profitability or efficiencies. But no matter what option you choose, you will receive excellent customer service but more importantly you will receive the most in-depth and practical training available anywhere in South Africa.

About Our Public Training Courses

Our public training courses provide a quick and easy way for an individual or a small team to quickly get up to speed on specific skills sets. These courses are scheduled throughout the year and are held in professional training facilities across the length and breadth of South Africa.

About Our Onsite/In-house Training Option

This option provides a more economic and convenient training solution for companies. Any of our training courses can be supplied off-the-shelf or they can be customized to meet the unique needs of your team. Our team members are uniquely qualified to help you and they take all of the guesswork and worrying out of the equation.

What Value do we add to your Organization

We help companies improve operational speed and streamline processes to gain a sustainable competitive advantage Our main objective is to help our clients solve their production problems and we achieve this by assessing the following areas:

Leadership

Commitment to change, technical capabilities, culture, talent management, success planning etc.

Management system

Tracking systems, workforce empowerment, visual management, problem solving, goal deployment.

Asset Condition

Total Productive Maintenance, work order management, facility condition.

Sales & operation planning

Production planning and scheduling, order delivery, risk of disruption

Lean maturity

5S, workflow, work cells, pull systems, Continuous improvement organization.

Quality

Management system, specification management, problem solving documentation.

What value do we add in your organization

Based on the assessment findings and data analysis, we implement cost-effective solutions that are designed to significantly reduce costs, eliminate waste, increase productivity, maximize profits and drive growth.

01.

Throughout the project we work with your team from different levels in order to ensure that they take ownership of the new process and clearly understand the implementation and its monitoring process.

02.

After the implementation, we leave with you the framework and structure that helps you drive and sustain operational excellence and set your business apart.

Our Team

We employ a core team of exceptional individuals and draw on a wide array of professional associates and support personnel on an as-needed basis.

Diverse Human Resource

STH has a diverse human resource capacity that consists of individuals that are passionate about what they do, hold our clients' needs at heart and have a proven track record of delivery of the training, development and consultation to related sectors.

Professionals

Within our pool of professionals are people who have worked intensively in forestry and agriculture, production, training, refinery, construction, consulting and Continuous improvement.

Clients' Operations

Because of the variety in our clients' operations STH takes cognizance of the different training and consulting requirements to meet their needs. We therefore give a personalized touch to each and every client.

Our Services

Bespoke Services

Medicals

As a legal requirement as per the occupational health and safety act 85 of 1993 and its regulations employees have to go for medical check-ups.

Noise Assessments

The aim of the risk assessment is to help you decide what you need to do to ensure the health and safety of your employees who are exposed to noise.

WSP and Annual Training Reports

Preparing your skills plan doesn't have to be a tedious job, our teams is always ready to assist.

Our Services

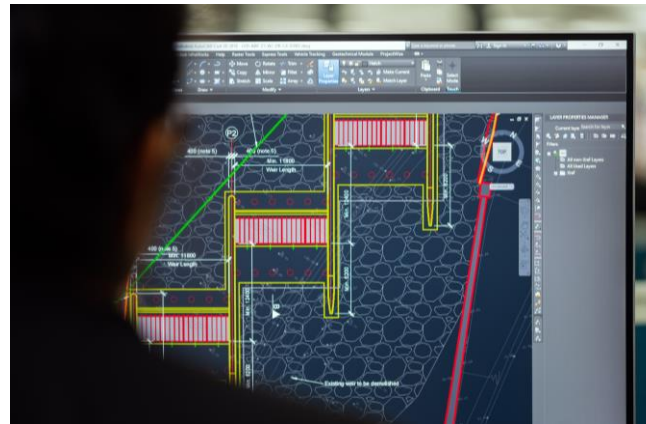

Bespoke Services

Safety Audits

Occupational Health and Safety Audits

The purpose of an OHS Audit is to identify both strengths and weaknesses in the OHS program of a workplace. Areas such as accountability, policies, hazard identifications, control, training, and numerous other factors must be considered.

Emergency evacuation plans and procedure

- Primary and secondary evacuation plans
- Alterations done to existing ones
- Installation of signage as per evacuation plans
- Emergency procedures
- Evacuation training(on request)

Fire equipment services

Having your premises kitted out with the requisite fire safety equipment helps to protect both your site as well as the people in and around it. But while having these individual pieces of equipment fitted is a great start, looking after the safety of your building is an ongoing task that you shouldn't just ignore.

About the director

Sonto Nhlabathi is the Director of Sparkling Touch Holdings. She holds a qualification in Industrial Engineering from the Vaal University of Technology, in Vanderbijlpark, South Africa.

Sonto is also a qualified facilitator and assessor, who has facilitated various programs such as, Lean Engineering, Production technology, safety courses, but to name a few, with years of experience. Her qualification in engineering have afforded her an exciting experience in leading manufacturing, automotive and training industries.

SMME

She has acquired great work ethics and business experience in both the big corporates and SMME environments

Passionate

Sonto is a passionate entrepreneur with vast expertise in Lean manufacturing, Industrial Engineering, consulting, coaching, training and facilitation.

In her previous work experience, she occupied positions as Industrial Engineer, Continuous Improvement consultant, Lean consultant, Training facilitator and mentor.

Character

It is her nurturing character, her interactions with a diverse number of people and entrepreneurs, and her business acumen that led her to start coaching entrepreneurs and people. The focus being to empower individuals to live more consciously, purposefully and meaningfully. Her coaching, training and consulting work is firmly rooted in this passion for transforming individuals, teams and organisations
